No. 8. Office of the President of the
Sringeri Municipality,
dated, Sringeri, 21st Novr 1899

To

The Secretary to the Government of
Mysore, General & Revenue Depts.

Sir,

I have the honour to submit herewith an English Translation of the Proceedings of the Meeting of the Municipal Board, Sringeri, held on the 30th Ultimo. The various measures proposed therein are very necessary and urgent for the Sanitary and other improvements of the town and not less than Rs 10,000 may be required for carrying out the same. But it is very much to be regretted that this Municipality can, at its present state of finances, ill afford to invest

such a large sum of money.

I represented the above state of things to His Holiness Sri Jagad Guru Maha Swamigal, who has been graciously pleased to promise that he would gladly give back to the Municipality for some time the moiety of the Municipal revenue which is now being paid to the Sri Mutt, for the purpose of carrying out the proposed Special works. It is highly desirable that this gracious concession of His Holiness is taken advantage of and the necessary measures adopted at once for the improvement of the town in all possible ways.

I beg to request, therefore. that you will be so kindly pleased as to place the matter before Government for their favourable consideration and get a loan of Rs 10,000 sanctioned

for this Municipality. This loan will be repaid by annual instalments of Rs500 out of the gratuitous grant so kindly promised by His Holiness, the remaining sum being intended to be utilised for carrying out other important works connected with this Municipality.

I have the honour to be,

Sir,

Your most obedient servant,

A Arulanandasamy

President.

Translation

Proceedings of the ordinary meeting of the Municipal Board of the town of Sringeri held on the 30th of October 1899.

Read Government Proceedings

No $\frac{3607-9}{\text{L.F. } 51-92}$ dated 14-9-99 appointing the Agent of the Mutt as President of the Municipality.

The Vice-President stated that the Municipality of the town of Sringeri was till now managed under the Presidentship of the Deputy Commissioner of Kadur District, that recently the Municipal members having proposed that the appointment of the Agent of the Mutt as the President of this Municipality would greatly tend to improve the town, the proposal was recommended to Government by the Deputy Commissioner Mr F.C.E. Carr

and was strongly supported by the present Deputy Commissioner, Mr. B.K. VenkataVaraca Aiyangar, and that the Government have now been pleased to sanction the proposed appointment in the above proceedings.

Resolved that the heartfelt thanks of the members of the Board should be conveyed to Government for having been graciously pleased to grant their prayer and also to the Deputy Commissioner, Kadur Dt for the trouble and interest he was pleased to take in the matter.

2. The cash accounts of the Municipality for the month of September 1899, were then read and passed.

While going through the accounts, the President observed that in this Municipality Octroi duty was levied only on the following eight articles, viz, 1 Cocoanuts fresh, 2 Cocoanuts dry, 3 Sugar, 4 Jaggery, 5 ghee, 6 Kerosine oil, 7 tobacco, 8 cloth, but not on the several other oils which are extensively imported into, and consumed in the town; and that a good source of income was thus lost to the Municipality -

Resolved that it should be ascertained on what articles and at what rates Octroi duty is levied in the Municipalities of Chik magalur, Tarikéré and Kadur of this district and that the matter should be brought before the Board

for consideration.

3. The President observed that in this town, during the rainy season, the roads and streets, as the members are aware, were overflooded with rain-water which often stagnates, that in consequence the houses were getting very damp, that the health of the inmates was thereby greatly affected and that for the purpose of removing these drawbacks, the plan and estimate of a drainage-scheme were under preparation by the Executive Engineer of the Kaden Dt

Resolved that the drainage-work should be taken on hand as soon as the plan and estimate are received.

Resolved also that to facilitate the removal of filth and duty deposits accumulated in the backyards of houses situated in the congested parts of the town and also to drain these parts, a conservancy lane about twelve feet in width should be opened with side-drains from Arekal Street to Hari Hara-Devan Street, that the place selected for this purpose by the President, the Vice-President and the members at the time of their inspection on the morning of the 29th of October is the most suitable, that the Object of opening the lane should be explained to the owners of the houses and backyards through which the lane would pass and the required lands taken with their consent, and

that, in the case of those who might raise objections to give their lands, steps should be taken to acquire such lands according to the provisions of the Land Acquisition Act.

4. The Petition addressed to the Vice-President by Hosamané Mallappa was then read - The petitioner states that the proposed conservancy lane, if opened in the place selected by the President and the members would pass through his granary and the adjoining vacant ground, that he might thus lose a large portion of his house, — perhaps more than what his neighbours would do — that after all, the said lane might not quite answer the

purposes for which it was intended inasmuch as it could not, as the members seemed to think, facilitate the removal of rubbish from the backyards of many houses, and that they would therefore do better by opening a lane as marked in the enclosed Sketch.

Resolved ~~that~~ after due consideration of the petition and the Sketch therein enclosed, that the petition should be rejected, as it was found on personal inspection on the previous date, that the petitioner would not be so much inconvenienced by the opening of the lane as he alleges he would be, and as the lane proposed in his Sketch is not only useless, but will cause various

inconveniences to great many people

5. Read petition presented by Lakshmi Narasimha Somayaji, Soma-pithi Subba Bhattar and other Brahmin inhabitants of the town, stating that they are put to great inconvenience while returning home from the river after bathing on account of the petty stalls at the entrance of the lane leading from Arekal street to Tathambhattar katte and praying that as the said lane is very much lower than the road level and as it, in consequence, gives ample cover for people to commit nuisance during nights, the same may be filled up and a road with side-drains be formed.

The Vice-President informed

Board that the stall-keeper was paying a rent of R8(2) two ~~to~~ a year to the Matt and a tax of Rupees two to the Municipality.

Resolved that the Matt authorities should be addressed for removing the shop which, being frequented by people of all castes, is really a source of much inconvenience to the Brahmins returning from the bathing ghat; — that, as the removal of the shop is quite urgent and necessary, the municipal tax imposed thereon should be written off the accounts; that, as it is quite unnecessary to have the lane filled up to the level of the main street and as by doing so, the free flow of rain-water from the roadside may be interfered with, this part of the petitioners' prayer

cannot be attended to; and that it is only neeessary that the flight of Stone steps at the entrance should be extended by one yard.

6. The President observed that, when he inspected the town, accompanied by the members on the 29th Instant, it was found that the owners of two or three houses in Hari Hara Devar Street and those of many houses in the main Street, had, for their own convenience, put up verandahs just in front of their houses, actually encroaching upon the public road to the extent of three, four, and in some cases, five feet, that it could be easily detected how these people had, in the course of past twenty years or so, gradually

been effecting such encroachments first by putting up temporary roofs of areca leaves, next by thatched roofs, then by tin-sheet roofs, and lastly by tiled roofs of permanent rafters and reapers; that, being questioned, the people concerned, admitted the fact of the encroachments, but pleaded that the roofs had been long in existence, and being asked to have them removed, they said that they had no objection to do so; and that none of them either denied the encroachments on the public road or objected to the removal of the verandahs.

Resolved that the Vice-President together with the members should make it a point to go round the town and

have the verandahs removed wherever there were actual encroachments; that, if any of them should ask for time for removing the same, he should give them time not exceeding thirty days and see that the encroachments are removed within such period; and that, if any person that has deliberately encroached upon the public road for his own convenience would object to remove such encroachments, then the necessary legal steps should be resorted to to recover possession of such lands.

7. The President observed that in the main Street there were about four hundred houses built so closely

that the roofs were found in very close contact with one another; that of these, nineteen houses were thatched ones; that, in case of a fire accident, the whole street containing such a large number of houses, would be subject to danger; and that, when the owners of these houses were asked, during the inspection of the town on the 29th Instant, to remove the thatched roofs and to have tiled roofs in their stead, they agreed to do so but asked for a short time.

Resolved that the owners of such houses should be summoned and made to execute a Mutchilika for changing the roofs of their houses within a reasonable time to be fixed

according to the circumstances of each case; and that if any persons plead inability to put up tiled roofs, they should be given house-sites outside the town or in some other locality where there would be no room for such a danger and asked to remove the thatched houses to such place.

Resolved also that such people as have put up in their backyards sheds having straw roofs for the purpose of storing up firewood, straw etc. should be told to remove the straw roofs and put up tiled roofs in stead.

8. The President observed that while going through the Quikéri lane during the town inspection on the

29th Instant, it was found that. there were about eight houses of other caste people intermixed with Brahmin houses; that, on enquiry, it was ascertained that these people were women of very bad reputation, leading the life of prostitutes; and that residence of such females in the midst of the town, and especially of Brahmin quarters, must of course be a source of vexation to persons possessing some self-respect and living an honourable life; and nay, it might even give room for apprehension that the contact of these women might corrupt the morality of the members of their own families-

Mr Lakshmipataiya, the Hospital Assistant remarked that by allowing other caste people to reside in the midst

of Brahmin quarters, all sorts of filthy rubbish and dirty water get accumulated in the neighbourhood and public health is thereby endangered.

Resolved that these disreputable females should be given house-sites somewhere outside the town or in any other place suited to them, but not inhabited by ~~the~~ Brahmins and steps should be taken to get the ordinary houses in which they are now living dismantled and new houses constructed in the said sites.

9. The President observed that on inspecting the existing municipal lanterns and lamp-posts, it was found that there were only thirteen lanterns and lamp-posts, that these

seemed to be very old and of very small size and value; that in consequence they became filled with smoke soon after they were lighted, and owing to the extreme dimness of light they appeared as if they were not lighted at all; that, as the pump-posts were made of wood, they would get rotten soon owing to the exposure to the rains consecutively for four or five months; and that the thirteen lanterns now put up were not at all enough and at least twenty-five lanterns would be quite necessary for lighting this large town.

Resolved that twenty-five superior lanterns with iron or stone lamp-posts should be purchased for lighting the town.

10. Resolved that about fefty dust-bins made of zinc sheets should be sent for and put up here and there in the town, and that for the purpose of removing outside the town the rubbish and sweepings that might be thrown into these dust-bins, a cart with a pair of bullocks and a driver should necessarily be maintain

11. The Vice-President brought to the notice of the Board that there were only five sweepers for sweeping this large town, that, as it was not possible for them to sweep the whole town even once a day, it was arranged tho to have the main street alone cleaned every day and the remainin streets only once in two or three days

and that it was quite necessary to increase the number of sweepers.

Resolved that two more sweepers should be employed, besides maintaining a cart for removing these sweepings outside the town.

12. The President observed as follows:-

"Sringeri is a pretty large town. As this is located in the Malnad region of the Province, the articles of provisions are not produced here. The people here are therefore obliged to live upon provisions imported from outside. Though there is at present an arrangement for holding fair every Monday, it has not been flourishing well for want of facilities.

During the rainy season, no weekly fair is held at all. The reason is that there is no convenient place for holding the fair - Besides there are no covered stalls and this has been the chief cause for the cessation of fairs during the rainy weather. As fairs are not regularly held owing to the disadvantages mentioned above, poor people are obliged to purchase their necessaries of life at exorbitant rates demanded by the local merchants and are thus put to great inconvenience and loss."

Resolved that the vacant ground belonging to one Gosumia Sahéb of Shimoga located a[illegible]

other end of the Petta should be required for the Municipality and a market erected there with a compound wall made of raw bricks or clay about seven or eight feet high, introducing zinc-sheet roofs supported by junglewood pillars, in order that the fair may be conveniently and regularly held there; that a bandy-stand should be provided close by; that the merchants and the ryots should be encouraged in all possible ways so that the market transactions might increase and add to the convenience of the general public; and that these arrangements, being very necessary and urgent, should be made as early as possible.

13. The President observed that in this town the house-tax was fixed

for the first time according to the approximate value of each house in the year 1888, when the Municipality was brought into existence, that since then the house-tax was not revised at all for the whole town, that, as the value of houses had considerably increased when compared with what it was eleven years ago, it was nothing but reasonable that a ~~val~~ fresh valuation of the houses should now be made and the tax levied accordingly and that the Municipal revenue from house-tax which at present amounted to Rupees 403 would thereby considerably increase.

Resolved that a copy of the Government Proceedings on the [illegible]

of house-tax should be obtained from the Presidents of the Municipalities in the Kadur Dt; and that the house-tax should be revised in accordance with the said proceedings.

14. The President observed, in Conclusion, as follows:—

"The several proposals made and passed in to-day's meeting ought very necessarily and permanently to be introduced into this town and they might be enumerated as follows:

(1) Introduction of a drainage-scheme to drain the town of the rain-water which now floods the streets and roads and gets absorbed in the soil.

(2) Metalling of the roads throughout the town.

(3) Construction of tunnels wherever

necessary and acquisition of lands required for the purpose.

(4) Purchase of superior lanterns and lamp-posts.

(5) Introduction of dust-bins.

(6) Construction of the market for holding weekly fairs and the acquisition of the land required for the purpose.

All these things are urgently required to be introduced in this town. To carry out all these proposals, not less than Rs 10,000 may be required, but to meet such a large demand, there is no balance left in the Municipal funds. From the small balance available, none of the works mentioned above can be

be executed. In case of raising a
separate loan for the purpose of
carrying out these special works,
there is little or no chance of having
the same cleared out of the balance
left in the Municipal funds, for
one half of the Municipal income
has to be paid to the Sree Mutt as
yearly contribution and from the
remaining half the expenses of
maintaining the permanent Mu-
nicipal Establishment has to be met,
and the small balance left is found
hardly enough to carry
nual repairs of ro

As this
Sree Mutt and as
tually interested

as well as in promoting the welfare of its inhabitants, His Holiness Sree Jagad Guru Maha Swamigal may be approached with an appeal, requesting to give back gratuitously for some time the yearly contribution above referred to, for the purpose of carrying out these special works. In case this prayer is granted, an application may be made to Government for a loan of Rs 10,000 to be repaid by annual instalments of Rs 500. From the gratuitous grant that may be given by the Sree Mutt, the Municipality would be able to carry out these and other important works."

Resolved that the President should be requested to take the necessary steps for securing His —

gratuitous grant from His Holiness and also for obtaining the loan of Rs 10,000 from Government, as, in the unanimous opinion of the Board, there is no other course left for carrying out the special works which are absolutely necessary for the improvement of the Town.

Sringeri,
November 21, 1899

Narasimha Sastry
President.

Kadur District Deputy Commissioner's Office
Chikmagalur, 21st December 1899

From The Deputy Commissioner
Kadur District

To The Secretary to the
Government of Mysore
General and Revenue Depts

Sir, With reference to your docket
No. 6666 of the 11th December 1899, forward-
L.F. 32-99
-ing for opinion letter No. 8 of the
21st November 1899 from the President
of the Sringeri municipality asking
for a loan of Rs 10,000/- from Govern-
-ment to carry on certain Sanitary
works in that municipality, I beg to
state that as His Holiness the Jagad
Guru has very kindly waived the
moiety of the Mohatarfa tax due to
the Sri Mutt at the disposal of the
municipality to enable it to carry
on the works proposed, the Government
ought, I think, to render the assistance
sought by advancing Rs, 10,000/- bear-
-ing interest at 4 per cent per annum;
the receipts of the municipality being
taken

taken as security for the loan. The President has agreed to these terms in writing. The enclosed statement shows that the average receipts of the municipality for the past five years amount to Rs 1970/-. The Diwan and the Councillor in whose charge this District is, have both been Sringeri and are, I believe fully impressed with the necessity of ameliorating the present sanitary conditions of Sringeri, as it is constantly resorted to by numerous persons at all times of the year from various parts of India, more especially on festive occasions such as Dasara, &c. The earnestness of the President and members of that municipality to improve its sanitation deserves encouragement.

2. The enclosures of the docket under reply are herewith returned.

I have the honor to be

From The Deputy Commissioner -
Kadur District.

To - The Secretary to the Government
of Mysore
General & Revenue Department

Sir,

In Continuation of the Correspondence ending with my letter No 407 of the 21st December 1899 about the grant of a loan of Rs 10,000/- to the Sringeri Municipality for the purpose of carrying on certain Sanitary works in the Sringeri Town I have the honor to submit herewith for favor of orders of Government a copy of letter No 26 of the 15th January 1900 from the President of that Municipality soliciting the early grant of the loan applied for.

I have the honor to be,
Sir,
Your most obedient Servant.
[illegible]
Deputy Commissioner
Kadur District

From

The President
Sringeri Municipality

To.

The Deputy Commissioner
Kadur District

Dated 15th January 1900.

No 26.

Sir

I have the honor to acknowledge the receipt of your letter No 921 dated 9th instant enclosing a copy of the Dewan's Memo dated the 23rd August 1899 to the P.W.D regarding the "Sanitation and Roads" of Sringeri as also the two projects prepared by the Executive Engineer of this District together with his report and the tracing plan of the town of Sringeri.

You are already aware that in pursuance of the resolution made in the meeting of the Municipal Board of Sringeri held on the 30th October 1899 an application has been

to Government for a loan of Rs 10,000/.
(Ten Thousand) in order to enable me to
Commence at once the proposed works
of Sanitation &c for which this Munici-
-cipality is Sadly wanting funds

As the proper Season for executing
the said works has already Commenced
I have the honor to Request that you
will be so good as to write to Government
Recommending the urgency of the loan
and see that our prayer is granted
as early as possible.

I have &c

Letter No 8 of 21st November 1899 from the President of the Sringeri Municipality Submitting an English Translation of the Proceedings of the meeting of the Municipal Board of Sringeri held on the 30th October 1899 and requesting that a loan of Rs 10,000 may be Sanctioned to carry out certain important & urgent Sanitary works in the Municipality & stating that the loan will be repaid by annual instalments of Rs 500.

(2) Read also Correspondence ending with letter No 486 of 21st January 1900 from the Deputy Commr. Kadur District recommending that the loan applied for by the Sringeri Municipality may be Sanctioned with interest

at 4 p.c per annum, the receipts of the Municipality being taken as security for the loan and Statutes that His Holiness, the Jagad Guru has very kindly placed the Majesty of the Mohatorfa tax due to the Mutt at the disposal of the Municipality.

R.L. 1432
27-4-00

Order thereon. 10928-30
12-99

The annual instalment promised by the President is too small and the loan at 4 p.c would run for 41.04 years. This is too long a period. The proposed works are, however, very important for the proper Sanitation of this important town and in order to permit of their early execution, the Government resolve to

lend the Municipality a
Sum not exceeding Rs 10,000
as recommended by the
Deputy Commissioner and
upon the following terms
(1) The proposed works
Should be carefully esti-
mated for and a Schedule
of them Submitted through
the Dy Commr. for the
approval of Govt. The most
important of all works is
the proper metalling and
draining of Streets, So as
to improve the health &
convenience of the inha-
bitants. As money is
required for the execution
of any item of work in
the approved Schedule the
Same will be advanced
a part of the loan of
Rs above Sanctioned.
The loan to carry interest
@ per annum

(3) The Municipality to pay to Govt every year (till interest and principal of loan so fully discharged) the sum of Rs 1000 from Municipal revenue including the grant-in-aid which the Govt has kindly promised to the Municipality.

(4) The loan will thus be discharged in 13.02 years.

£2.7 The bonds are in the usual terms will be obtained by the Dy Comr from the Municipality concerned.

Office of the President of the
municipalities, Kadur District
Camp Ajjampur 6th July 1901.

From H. A Sparkes, Esquire
President of the municipalities
Kadur District

To
The Secretary to the
Government of Mysore
Genl and Revenue Dept.

Sir,

I have the honor to request that you will be so good as to obtain the Sanction of Government to the drainage project and other Sanitary improvements in the town of Sringeri.

2. The Superintending Engineer, Sanitary works, was addressed in the first instance to obtain the Sanction of Government in the Public Works department. The Chief Engineer having replied that there being no reference forthcoming

forthcoming in his office in the matter of the loan of Rs 10,000/- sanctioned by Government to the Sringeri municipality and that the sanction of Government, in the General Department, must first be obtained this being a municipal work, the Superintending Engineer forwarded the Estimates of the project with a request that necessary sanction may be obtained as per Government Proceedings no. 1109-6013 of 28th November 1899.

3. The Estimate as prepared by the Superintending Engineer amounts to Rs 9784/- which can be met out of the loan of Rs 10,000/- sanctioned by Government in their Proceedings No. 1098—30 / L.F. 32-99 dated 2nd April 1900 to the Sringeri municipality. The necessary provision will be made in the current year's

budget of the Sringeri municipality.

4. The Estimate, tracing plan and other Enclosures received with the Superintending Engineer's letter no: 1370/583 dated 6th instant are herein enclosed for favour of reference and obliging return.

I have the honor to be,
Sir,
Your most obedient Servant
